

## **ASSISTANCE GRANTS**

## **JANUARY 2019 – MAY 2022**

## **Audit Report**

## 30 DECEMBER, 2022

This audit was performed by the Internal Audit Department of the Government of the Virgin Islands in association with the Office of the Auditor General and in accordance with recommendation B12 of the BVI Commission of Inquiry Report dated 4 April, 2022. The results of this audit are being transmitted in accordance with Section 20 of the Audit Act of 2003.

Internal Audit Department 3rd Floor, Ashley Ritter Bldg. Road Town, Tortola, British Virgin Islands

Telephone: (284) 468-4771

#### 1.0 BACKGROUND

On January 19, 2021, former Governor, His Excellency Augustus Jaspert, appointed a Commissioner to conduct a full, faithful and impartial inquiry into whether there was information that corruption, abuse of office or other serious dishonesty in relation to officials, whether statutory, elected or public, may have taken place in recent years; if there were such information, to consider the conditions which allowed such conduct to take place and whether they may still exist; and, if appropriate, to make independent recommendations with a view to improving the standards of governance and the operation of the agencies of law enforcement and justice in the Territory. The Commissioner's report was published on April 4, 2022. A total of forty-nine (49) recommendations were provided, four (4) primary recommendations and a further forty-five (45) recommendations.

The report made several recommendations for audits to be conducted on various matters by the Auditor General or someone of her choosing. The audit of the Assistance Grant Programmes within the House of Assembly as well as Government Ministries was one such audit. Subsequently, the Auditor General assigned the conduct of this audit to the Internal Audit Department.

Although not adequately documented, it is our understanding that the various Assistance Grants Programmes were developed to provide various assistance to citizens who require financial help for various reasons. The Government of the Virgin Islands operated various Assistance Grants Programmes through different Government Ministries and Departments. Funding for these programmes are allocated through the Budget Process each year and ranged from an approximate cumulative total of \$5.1 million to \$8.9 million, during the period 2019 to 2022. As with any public programme, it is important to ensure that systems of controls are in place to account for and manage funds allotted to such programmes to safeguard disbursements from abusive practices.

Based on the 2022 Budget Estimates, the following assistance grants programmes were reviewed based on the discretionary nature with which Ministers or Elected Representatives utilized such funds.

Entity	Head-Subhead	Account Name
House of Assembly	10114051-572100	Organisation Assistance Grants
House of Assembly	10114051-572110	Sporting Organisation
House of Assembly	10114051-572120	Religious Organisation
House of Assembly	10114051-572130	Civic/Social Organisation
House of Assembly	10114051-572140	Education Organisation
House of Assembly	10114051-572199	Other Org Assistance Grants
House of Assembly	10114051-572210	Scholarships - Domestic
House of Assembly	10114051-572220	Scholarships - Foreign
House of Assembly	10114051-572230	Medical - Domestic
House of Assembly	10114051-572240	Medical - Foreign
House of Assembly	10114051-572250	Other Individual /Family Assistance
Premier's Office	22204090-572250	Other Individual /Family Assistance
Ministry of Education, Culture, Youth Affairs and Sports	25434001-572220	Education Policy Planning and Administration – Scholarships Foreign
Ministry of Education, Culture, Youth Affairs and Sports	25434001-572250	- Education Policy Planning and Administration - Other Individual/Family Assistance
Ministry of Education, Culture, Youth Affairs and Sports	25644037-572210	Tertiary, Adult, Continuing Education - HLSCC and Tuition Assistance Programme — Scholarships - Domestic
Ministry of Education, Culture, Youth Affairs and Sports	25644038-572220	Tertiary, Adult, Continuing Education — Overseas Scholarships - Scholarships - Foreign
Ministry of Communications and Works	27564191-572250	Other Individual/Family Assistance

The reasons for the need for these programmes encompass awarding grants for medical, financial, educational purposes, civic and social, religious, organizational, legal and special needs reasons. As far as could be determined, the programmes were intended to be needs based.

These programmes were selected for review based on the discretionary nature of the awards/disbursements. In addition, due to the fact that disbursements from these programmes are determined/approved by elected officials, heightens the risk that these programmes can be utilized for political rather than socio-economic purposes, if effective controls are not put in place.

#### 2.0 INTRODUCTION

As disbursement from these programmes do not meet the standard expenditure as contemplated in the Public Finance Management (PFM) Act, 2004 and Regulations, 2005, it is important to provide some information to offer clarity on the nature of the payments as well as provide a contextual explanation as to the exercise of discretion in public administration. The following descriptions are offered on the nature of the disbursements/payments.

#### 2.1 Transfer Payments

Transfer payments are transfers of money from the Government to an individual or an organization for which the Government does not receive any goods or services directly in return, does not expect to be repaid in the future and does not expect a financial return. Such payments are distinct and separate in this respect from other acquisitions by Government where it receives a good, service or some economic benefit directly in exchange for a payment. Within the Government of the Virgin Islands the method/programme utilized to effect transfer payments is through the use of Assistance Grants Programmes operated within some Ministries, as well as the Premier's Office, and the House of Assembly. Payments from these programmes are usually made at the sole discretion of the Minister or Member to individuals, businesses or other organizations without any ongoing contractual requirements.

These payments are usually characterized by the following:

- Payment are made solely at the Minister/Member's discretion
- The Minister/Member decides how much, to whom, and when payments are to be made.
- In most cases, an application for the payment is made by the recipient.

#### 2.2 Exercise of Discretion

Since one of the audit objectives intends to evaluate the use of discretionary authority and there may be varying understanding of discretion, it is necessary to take some time at this early stage to provide some contextual basis for our evaluation of these programmes under this objective. Discretion can carry different meaning depending where it is being exercised. Discretion in private sector can take on a substantial different approach than discretion when exercised in the public sector. Our description of discretion is based on guidance provided by Ombudsman Offices of Western Australia and British Columbia. We find that the guidance provided by these agencies to be pragmatic in the exercise of discretion in the public domain.

Discretion exists when the decision maker has the power to make a choice about whether to act or not act, to approve or not approve, or to approve with conditions. The role of the decision maker is to make a judgement taking into account all relevant information.

For public sector decision making, legislation generally provides the lawful authority for action to be taken and for decisions to be made. Legislation often compels a decision maker to act in a particular way. However, where the legislation does not dictate a particular action, the decision maker is given discretionary power to deal with a matter and has a choice to make. This choice will often involve an element of judgment about the decision.

Within public administration, decision makers must use discretionary powers in good faith and for a proper, intended and authorised purpose. No decision maker within the public domain has unrestricted discretionary decision making power.

It is not sufficient to exercise discretion and approve an application simply because it seems to be the right thing to do. When exercising discretion, decision makers need to act reasonably and impartially. They must not handle matters in which they have an actual or reasonably perceived conflict of interest.

In exercising discretionary powers, decision makers should have regard to any specific requirements as well as satisfy general administrative law requirements. Some of the general principles relevant to the exercise of discretion are:

- Acting in good faith and for a proper purpose;
- Complying with legislative procedures;
- Considering only relevant considerations and ignoring irrelevant ones;
- Acting reasonably and on reasonable grounds;
- · Making decisions based on supporting evidence;
- Giving adequate weight to a matter of great importance but not giving excessive weight to a matter of no great importance;
- Giving proper consideration to the merits of the case;
- Providing the person affected by the decision with procedural fairness; and
- Exercising the discretion independently and not under the dictation of a third person or body.

Although these descriptions are not all encompassing, we believe they provide a reasonable basis for the assessment of these programmes.

In addition, in order to provide a comprehensive assessment of assistance grants within the Government of the Virgin Islands, we found it necessary to look at the operations of each programme within its respective operational entity, as well as collectively across the Government of the Virgin Islands. It is only by utilizing this approach, we believe, that the true picture of assistance grants can be unfolded.

#### 3.0 AUDIT OBJECTIVE AND SCOPE

The objectives were as follows:

- 1. To assess the level of due diligence conducted in awarding grants and to determine whether grants were awarded using a transparent and equitable process.
- 2. To assess whether there was any abuse of discretionary authority in awarding grants.
- 3. To determine whether grants programmes were abused by applicants across programmes.

The scope covered the period of January 1, 2019 to May 31, 2022.

#### 4.0 AUDIT METHODOLOGY

The audit methodology involved understanding and documenting the processes for the awarding of grants within each entity and documenting the internal controls governing those processes. Additionally, risk assessments were performed to identify and evaluate potential risks and key controls, and an audit programme was developed to test whether those controls were operating as intended.

Only findings of internal control weaknesses that could affect the adequacy and effectiveness of management systems have been reported; however, the audit's conclusion is based on our overall assessment of the control procedures against the audit objectives.

#### 5.0 AUDIT APPROACH

The audit's approach and methodology was consistent with the requirements of the international practice of internal auditing and the Internal Audit Act, 2011.

The following audit steps were performed in the execution of the exercise:

**Planning Phase**: Internal Audit conducted a risk assessment to determine the audit's objective and scope. Based on the risk assessment an audit programme was developed for use in the audit's conduct phase.

**Document Review**: Internal Audit assessed key documentation to obtain an understanding of the processing of grants within the various entities.

**File Review**: Internal Audit selected and reviewed a sample of relevant files related to the scope of the audit.

**Interviews**: Internal Audit conducted interviews with members of the various government entities.

The conduct phase of the audit commenced in mid-August 2022.

#### 6.0 AUDIT LIMITATIONS

The audit was limited by data integrity issues. Substantial effort was required to clean up payment data as it relates to the address book within the Government's Accounting System JDEdwards. In numerous instances, beneficiaries were paid utilizing multiple names, as many as four different name iterations of the same beneficiary, which made it difficult to show accurate cumulative payments to each beneficiary.

In instances where the auditors were able to identify multiple iterations of beneficiary names with a high degree of certainty, the name iterations were adjusted to reflect the same beneficiary.

In addition, because some payments were aggregated for multiple beneficiaries, it was difficult, to disaggregate the amounts to assign the specific amount to each beneficiary. Again, auditors, in instances where there was a high degree of certainty, adjusted the data to reflect the true beneficiary of the payment. Due to the sample drawn, all beneficiaries were not identified, particularly for the programme administered through the House of Assembly. Consequently, not all businesses receiving payments were the true beneficiaries of the awards. Some such payments to businesses may be a result of payments made to vendors on behalf of applicants and payments made to vendors/business that provided services on behalf of representative requests or through sponsorships.

In some instances, credit entries that represent checks being paid back into Treasury, could not be assigned to the individual to whom the payment was made. Additionally, manual receipts were found that have not been entered in the accounting system.

#### 7.0 STATEMENT OF ASSURANCE

In my professional judgment, as Director (Chief Audit Executive), sufficient and appropriate audit procedures have been conducted and evidence gathered to support the accuracy of conclusions reached.

This audit was conducted in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. The assurance is based on a comparison of the conditions, as they existed at the time, against pre-established audit criteria that were agreed upon with management. The assurance is applicable to the policies and processes examined.

#### 8.0 ACKNOWLEDGEMENTS

We would like to thank the Permanent Secretaries in the Premier's Office, Ministry of Communications and Works, Ministry of Education, the Clerk of the House of Assembly and their staff for their cooperation and assistance provided to the audit team throughout the engagement. Thanks is also extended to the Auditor General and her staff for collaborating on this engagement.

#### 9.0 OBSERVATIONS

#### 9.1 GENERAL OBSERVATIONS – ALL PROGRAMMES

9.1.1 Over the last three years, the Government awarded a total of Twenty-Two Million, Nine Hundred Thirty-Nine Thousand, Three Hundred Thirty-Three Dollars and Seven Cents (\$22,939,333.07) in Assistance Grants across the three (3) Ministries and the House of Assembly. The Premier's Office accounted for forty-seven percent (47%) of the total awards given from these programmes while the House of Assembly awarded thirty-nine percent (39%). It is important to note that the thirty-nine percent (39%) reflects the awarding of grants from the thirteen (13) members of the House of Assembly while the forty-seven percent (47%) was awarded solely by the Premier.

	Т	otal Assistance	
Ministry/Office	G	rants Awarded	Percentage
Ministry of Communications and			
Works	\$	707,134.24	3%
Ministry of Education and Culture	\$	2,501,394.59	11%
Premier's Office	\$	10,717,262.59	47%
House of Assembly	\$	9,013,541.65	39%
Total Expenditure for Assistance			
Programme	\$	22,939,333.07	100%

Table 1: Assistance Grants awarded by Entity

9.1.2 For the most part, the transfer of these funds were not governed by any financial rules contained in any legislation or other financial instructions approved by the Government of the Virgin Islands or handed down by any administrative body. Although all public finance is governed by the rules of the Public Finance Management (PFM) Act, 2004 and Public Finance Management Regulations, 2005, expenditure under Assistance Grants Programmes are not specifically governed by these rules.

- 9.1.3 It is the predominant belief throughout Government that since the monies expended under these programmes do not represent a direct Government "expenditure", the rules that would generally apply do not.
- 9.1.4 Unfortunately, despite this belief effective guidelines and compensating controls that would promote equity, transparency and accountability have not been developed to guide the distribution of these grants allowing the programmes to operate unabated at the whims and pleasure of elected officials.
- 9.1.5 All the programmes reviewed were found to be absent of clear and documented policy and programme objectives. Most programmes were established to provide general assistance to residents and constituents who may have fallen on hard times brought on by extenuating circumstances.
- 9.1.6 In the case of the programme operated under the Ministry of Communications and Works, this programme was specifically targeted towards home repairs and the like, while the programme operated under the Ministry of Education was to serve academic, cultural and promotion of the arts purposes. The programmes operated by the House of Assembly and the Premier's Office have no such limitations or focus and have been utilized for an expansive array of purposes based on the Members' or Ministers' determination.
- 9.1.7 None of the programmes reviewed have eligibility criterion. As such, persons of all socio-economic classes have applied and received assistance from all the programmes. These classes of persons includes Permanent Secretaries and other senior public officers, attorneys, entrepreneurs, store clerks, current and potential students, unemployed persons and the elderly to name a few. In addition, for the most part, these programmes lack limitation on the amounts that can be awarded whether individually (one-time award) or collectively (multiple awards to same applicant) during a specified timeframe. As a result, instances were found where single applicants received in excess of fifty thousand dollars (\$50,000) in a single payment.
- 9.1.8 The programmes also lacked cross ministry communications and collaboration. In the absence of such, applicants have made applications and received assistance from multiple programmes for the same purpose. In some of these cases, applicants have received more funds than originally requested. Appendix I, shows a breakdown of disbursements by applicants/vendors/beneficiaries over the period.

- 9.1.9 A review of the appendix will show that one applicant was the recipient of grants totaling in excess of two hundred thousand dollars (\$200,000.00) during the period.
- 9.1.10 The Appendix also contains a schedule of monies that were paid into the Treasury, as sundry receipts for prior year disbursements, for monies that were awarded. The amounts do not appear in the ledgers but should be considered when reading the Appendix.
- 9.1.11 The PFM Act, 2004 places certain responsibilities on Accounting Officers in relation to public monies received, collected or disbursed by their departments. Despite being personally accountable, Accounting Officers decision making control exercise no over these monies/accounts/programmes, save for authorizing payments, and have subordinated their fiduciary duties to the will of the political directorate. Accounting Officers have over the period signed payment instruments once applications have been approved by the political directorate without being satisfied as to the veracity and legitimacy of the award being granted. During the audit we sensed a general apprehension by Accounting Officers to challenge Members' decisions for fear of reprisal even when they are of the opinion that the decision by the Member is unsubstantiated.
- 9.1.12 The review also found that these grants programmes are duplicative in nature and are without any cross ministry coordination.
  - 9.1.12.1 It found that the recently drafted guidelines for administration of the Premier Office's grants programme are almost identical to the guidelines used for the House of Assembly. The audit found no transparent reasoning why multiple programmes would exist that support the same purpose.
  - 9.1.12.2 Programmes duplicated already well established programmes across Government. For example, the Ministry of Education administers an educational assistance grants programme, however, substantial educational assistance can also be obtained from the Premier's Office and the House of Assembly programmes. Housing assistance in the wake of the hurricanes of 2017 is offered through the Housing and Recovery Programme administered by the Ministry of Health and Social Development. Assistance can however, be obtained for this purpose from the Ministry of Communications and Works and the Premier's Office and the House of Assembly. Hardship or social welfare assistance is offered by Social Development Public Assistance Programme but can also be obtained from the House of Assembly and the Premier's Office.

- 9.1.12.3 The only difference between the duplication of these programmes is that the Minister/Representative directly responsible for the subject or constituency is the one making the decision to approve or disapprove the assistance. This in turn can be viewed as political bias and as a mechanism to influence votes and electoral outcomes.
- 9.1.13 Disbursements from the programmes lacked accountability and transparency. None of the programmes, with the exception of the Ministry of Communications and Works, are being conducted in a manner that is financially accountable. Although there are requirements or a general expectation that recipients provide evidence of need and the use of funds, these requirements are seldom complied with and enforced. None of the programmes were found to be transparent as none have a documented and transparent approach to arriving at decisions.
- 9.1.14 Documentation reviewed suggests that there were possible abuse within individual programmes and across all programmes. Evidence shows that individuals within the orbit of the political arena may have received preferential treatment in the awarding of assistance. For example, received sixteen (16) grants totaling one hundred and four thousand dollars (\$104,000.00). Similarly, immediate family members of find total content in the Premier's Office received ten (10) grants totaling one hundred and sixty-six dollars (\$178,166.00).
- 9.1.15 Evidence was also found where senior public officers in managerial roles received substantial assistance over the period reviewed. In one instance a senior public officer and their immediate family members received grants totaling two hundred and seventeen thousand and nine hundred dollars (\$217,900.00) over the period. While we understand that public officers and their families may experience situations where a legitimate need may exist, this discovery raises questions as to whether the officer's position/office held played a role in the awarding of the assistance.
- 9.1.16 It also raises another critical risk where public officers could be influenced or may become compromised in the execution of their duties in receiving such substantial amounts in assistance for themselves and their family members.

#### 9.2 MINISTRY OF COMMUNICATIONS AND WORKS

According to the Permanent Secretary in the Ministry of Communications and Works (MCW), the assistance grants programme is carried out by means of individuals applying to the Minister. Various types of assistance is offered, these include assistance for electrical connections, materials to repair homes damaged by Hurricanes Irma and Maria, road paving, retaining wall construction to name a few.

According to the Permanent Secretary, assistance is given solely at the Minister's discretion after a thorough review of the Ministry's budget for availability. The amount of the grant given is usually a portion of the requested amount, however, in some instances the full amount is awarded. In most instances, it is the Ministry's practice to pay the vendors directly based on invoices submitted by applicants. There are no established criteria on which grant applications are assessed and amounts awarded. The audit noted the following observations as it pertains to the grant programme within the MCW:

- 9.2.1 Over the period, the based on the ledger balances, Ministry expended seven hundred and seven thousand one hundred and thirty-four dollars and twenty-four cents (\$707,134.24), posted and unposted transactions, from the assistance grants programme. This amount was expended based on initial approvals by the various District Representatives and final approval from within the Ministry.
- 9.2.2 A review of the documentation did not reveal any indication that the Minister's approval was necessary or given as advanced by the Permanent Secretary as the documentation bore no marking (signature or otherwise) of the Minister's approval. Since 2020, only four (4) districts have utilized funding from the programme, Districts 2, 7, 8 and 5 for which the Minister is the Representative. Table 1 provides a breakdown of expenditure by districts over the period.

				Up	to May 31,	٦	otal as of	
District	2019	2020	2021		2022	Μ	ay 31, 2022	Percentage
1	\$ 19,788.00	\$ 1,750.00	\$ -	\$	-	\$	21,538.00	3%
2	\$ 42,572.51	\$ 39,505.34	\$ 7,379.45	\$	-	\$	89,457.30	13%
3	\$ 51,647.25	\$ 15,059.04	\$ -	\$	-	\$	66,706.29	9%
4	\$ 9,800.00	\$ 44,779.25	\$ -	\$	-	\$	54,579.25	8%
5	\$ 46,791.63	\$ 57,877.40	\$ 73,272.24	\$	44,122.88	\$	222,064.15	31%
6	\$ 56,781.33	\$ 21,443.59	\$ -	\$	-	\$	78,224.92	11%
7	\$ 50,000.01	\$ 2,000.00	\$ 6,000.00	\$	-	\$	58,000.01	8%
8	\$ 52,312.45	\$ 35,100.00	\$ -	\$	6,872.92	\$	94,285.37	13%
9	\$ 13,749.51	\$ 8,529.44	\$ -	\$	-	\$	22,278.95	3%
Total	\$ 343,442.69	\$ 226,044.06	\$ 86,651.69	\$	50,995.80	\$	707,134.24	100%

Table 1: Breakdown of Expenditure by District from 2019 to May 31, 2022

9.2.3 During the period, assistance was awarded through this programme for the following purposes:

Backhoe and	excavator	or Debris removal Cistern cleaning					
services							
Barge services		Bush cutting	Concrete purchase				
Purchase of railir	ng	Lumber, rebars, cement blocks	Trucking service				
Road paving		Retaining walls	Ghut cleaning				
Project ma	anagement	Ceiling fans	Doors and windows				
services							
Appliances (fri	dge and	Water pump	Paint				
stove)							
Vanity, sink		Cleaning of boat ramp	Bucket and pump truck				
			rental				

- 9.2.4 In 2021, funding for the programme was drastically changed when budgetary allocations were reduced to sixty-five thousand (\$65,000) (approx. \$7,222 per district representative) from four hundred and fifty thousand (\$450,000) (\$50,000 per district representative), the prior year. This resulted in a noticeable change in expenditure pattern from the subhead. Despite this significant reduction in allocation, the audit noted that eighty-five percent (85%) of the expenditure between 2021 and 2022 was expended by the District 5 Representative. This was found to be an indication of potential abuse of the programme favouring the Minister, who is also the 5<sup>th</sup> District Representative and is the ultimate controller of the funds.
- 9.2.5 The programme does not have established eligibility and assessment criterion. As a result, awards from the programme are subjective. Information obtained and reviewed does not bare any indication as to the process utilized in arriving at a decision. Although the Accounting Officer plays an integral role in the process, no information could be provided as to the basis of the decisions even though the Accounting Officer is required to provide final authorization to the transaction. This authorization is nonetheless given in the absence of such vital information.
- 9.2.6 Based on the documentation reviewed, in approximately ninety percent (90%) of the assistance awarded, applicants received the full amount of the funds requested. It was also observed that approximately seventy-five percent (75%) of the awards were paid directly to the vendors on behalf of applicants. These awards we found were adequately supported to justify the amounts of the awards as vendors' invoices and estimates/quotations were presented as the basis for the payments. Despite being adequately supported, the audit found the manner in which decisions are being made to be opaque.

- 9.2.7 Little to no due diligence was conducted by the Ministry to inform the decision making process. No assessment was conducted to determine whether a need existed and no evaluation was done to assess the merit of each application, as no criterion was used by which applications could be assessed. What is evident is that the Ministry's primary role was one of payment processor and not as the ultimate owner of the programme.
- 9.2.8 Although, based on the Permanent Secretary's description, the programme was intended to provide assistance to individuals and families, the audit found instances where representatives are utilizing the funding to execute minor district works such a bush trimming and park maintenance, thereby offering employment to individuals. This was done despite the fact that the Ministry of Communications and Works executes programmes that perform similar works throughout the territory.

These payments totaled approximately one hundred and eighty-five thousand two hundred and forty-seven dollars and eighty-three cents (\$185,247.83) across eight (8) districts. Only one (1) representative did not utilize the funding in this manner.

- 9.2.9 The approval of awards were subjective in nature and solely based on the discretion of the Minister/District Representative. The programme was found to be void of any eligibility requirements and as a result assistance was rendered to a broad spectrum of applicants which includes persons that may be classified as persons of means, had means testing been conducted.
- 9.2.10 Additionally, the Ministry also issued five (5) petty contracts totaling one hundred thousand five hundred and eighty-seven dollars and twenty-five cents (\$100,587,25) from this assistance grants subhead. These payments appear to have been issued in this manner due to the value of the payment exceeding ten thousand dollars (\$10,000), which is indicative of the Ministry attempting to adhere to the requirements of the PFM. The issuance of these contracts also represents a commitment by the Ministry, a practice that is indicative that such expenditure does not fall within the parameters of a transfer payment. The contracts are as follows:
  - Petty Contract 30P/2019 \$15,823.25
  - Petty Contract 49P/2019 \$19,788.00
  - Petty Contract 55P/2019 \$14,400.00
  - Petty Contract 70P/2019 -
    - \$16,400.00
  - Petty Contract 85P/2019 \$17,088.00
  - Petty Contract 86P/2019 \$17,088.00

#### Recommendations

As this programme has been discontinued, no recommendations are offered.

#### Conclusion

It is my conclusion that the assistance grants programme within the Ministry of Communications and Works lacked the necessary controls to ensure that awards under the programme were done in a transparent and accountable manner. The programme lacked basic eligibility criteria and was void of any due diligence and objective assessment of applicants and applications. The subjective nature of decision making, intertwined with the fact that the decision makers are also elected officials, obscures the issue as to whether the decision was based on merit or was politically motivated. Without a clearly documented basis for decision making, I have concluded that this programme was susceptible to abuse by both the decision maker(s) as well as applicants.

#### 9.3 PREMIER'S OFFICE

Like the Assistance Grants Programme under the Ministry of Communications and Works, the Assistance Grants Programme within the Premier's Office is to provide financial assistance to applicants at the Minister's/Premier's discretion. The scope of the awards under this programme are broad and can encompass disbursements for purposes such as education, home repairs, personal expenses as well as general financial hardship to name a few. Application is made directly to the Premier through the Office of the Premier and payments are processed by the accounting staff within the Premier's Office. Prior to 2022, there was no formal application process, however, an application was recently developed as well as guidelines based on those utilized by the House of Assembly. However, for the majority of the period under review the programme was without any documented guidance on how the programme was to operate.

As such, the audit noted the following observations as it pertains to the Assistance Grants Programme within the Premier's Office:

9.3.1 Over the audit period, the Premier's Office expended \$10,717,262.59 under its Assistance Grants Programme. There was a notable increase in both

budgeted amounts and expenditure within the programme when compared to prior years. Upon inguiry with the Ministry of Finance as to the for reason the significant increases in budgetary allocation for the programme, we were informed that the increase was

made on the basis of direct request by the former Premier and Minister of Finance but could not provide a clear basis for the request for increase in budgetary allocation. The significant increases in budgetary allotments and expenditure without adequate justification as required by the budget process, were found to be an abuse of process. Although the Minister of Finance has broad budgetary powers, the manner in which these increases were derived lacks both transparency and proper justification and may constitute an abuse of ministerial authority.

- 9.3.2 There were one thousand and sixty-four (1,064) disbursements from this programme. Four hundred and thirty-two (432) transactions were for amounts of ten thousand dollars (\$10,000.00) or more. These disbursements represented a value of \$8,185,992.59 of the total expenditure and averages \$18,949.06 per disbursement. Although the PFM does not provide guidance on transfer payments, the audit utilized the procurement principles espoused in the Regulations to compare these significant payments. The PFM requires significant due diligence to be performed for expenditure at various levels. For expenditure in excess of \$10,000.00, contractual arrangements are required after the due diligence is performed.
- 9.3.3 Although transfer payments do not require contractual arrangements, the performance of significant due diligence was expected for these disbursements. Unfortunately, the audit did not find any evidence that any

due diligence was performed before these payments were approved and disbursed.

- 9.3.4 The audit noted that in the years 2019 to 2021, this programme was funded significantly through supplemental budgets, sometimes these supplemental amounts exceeded the amount originally appropriated for the programme, the most significant increase being in 2020. Although the argument may be made that the effects of the COVID-19 pandemic necessitated this significant increase, the audit found it difficult to determine why funding for this programme was increased rather than placing the funds in the various programmes designated to offer such relief. It was found that doing such would have afforded a better opportunity to measure the total assistance rendered to residents as a result of the COVID-19 pandemic. Furthermore, these significant increases predates the COVID-19 pandemic.
- 9.3.5 A sample of three hundred (301)and one approved applications/transactions, which represents twenty-eight percent (28%) of all transactions made during the audit period, was selected for substantive analysis. These three hundred and one (301) transactions represented all payments of fifteen thousand dollars or greater (>=\$15,000.00) but represents sixty-three percent (63%) or \$6,727,544.34 of total expenditure from the programme. The following is a breakdown of how the assistance was distributed by category (categories were developed by the auditors):

Categories developed by Auditors										
<b>Categories of Disbursements</b>	# of Transactions	Valu	e of Transactions	%						
Educational Assistance	110	\$	2,694,191.14	40%						
Financial Assistance - Business Support	39	\$	832,625.29	12%						
Financial Assistance - Home Repairs	37	\$	757,643.97	11%						
Financial Assistance - Other	83	\$	1,673,073.45	25%						
Medical Assistance	12	\$	234,050.68	3%						
Grant	7	\$	239,159.81	4%						
Sponsorship	5	\$	111,300.00	2%						
Undetermined	8	\$	185,500.00	3%						
Total	301	\$	6,727,544.34	100%						

Table 2: Breakdown of Premier's Office Assistance Grants Programme byCategories developed by Auditors

9.3.6 Applications for assistance were not assessed on any objective basis as no due diligence (means testing or actual verification of actual need) was performed. In addition, the Premier's Office staff was only involved in receiving some applications and processing payments once the Premier approved an application and determined the amount of the award. Furthermore, there is no standard for documentation required to support

applications and hence, aid in the decision making process. As a result, we found that fifty-one percent (51%) of the sampled transactions did not have any supporting documentation (such as invoices, quotations, past due bills) beyond the letter requesting the assistance. These unsubstantiated (lack of supporting documentation) requests represents a value of \$3,297,292.13 of public funds that was expended without any evidentiary basis to support the disbursements.

9.3.7 As shown in Table 2 above, a minimum of two million six hundred and ninety-four thousand one hundred and ninety-one dollars and fourteen cents (\$2,694,191.14) was offered in assistance to persons purportedly pursuing some form of higher education.

Of that amount, seven hundred and eighty-eight dollars five hundred and forty-three dollars (\$788,543.00) was awarded without any documented evidence that the applicants were actually enrolled in any educational institution as the requests for assistance did not contain documentation such as acceptance letters from institutions, transcripts and other supporting documents to prove actual acceptance or enrolment.

9.3.8 Furthermore, the Premier's Office, through this assistance grants programme appears to have been fully funding scholarships for individuals absent of any of the protocols and requirements of the Virgin Islands Scholarship Programme (VISP). These scholarships were given without considerations for eligibility, academic requirements, limitations on the use of funds, restrictions on changes in academic programmes and bonding requirements. The audit found the awarding of these scholarships in this manner to be abusive, as they violate the Government's policy position, as documented in the Virgin Islands Scholarship Policy 2014 and the Revised Virgin Islands Scholarship Policy 2020. The following table shows both the applicant and beneficiary of assistance grants (scholarships) funded from this programme between 2019 – May 31, 2022.

Table 3: Assistance Grants (Scholarships) Awarded by the Premier's Office from2019 to 31 May, 2022

Α	Appears to have been awarded full scholarships									
Payee	<b>Cummulative Amount</b>	Benefici	ary							
	\$ 189,824.94									
	\$ 128,956.45									
	\$ 123,755.75									
	\$ 120,166.00									
	\$ 109,043.00									
	\$ 104,200.00									
	\$ 83,500.00									
	\$ 62,201.00									
	\$ 59,456.96									
	\$ 58,640.00									
	\$ 58,000.00									
	\$ 54,000.00									
	\$ 50,870.76									
	\$ 50,000.00									
	\$ 49,000.00									
	\$ 47,880.00									

- 9.3.9 Awards granted under this programme for educational assistance were significantly larger than the awards granted under the Virgin Islands Scholarship Programme. Based on documentation obtained from the Ministry of Education, the maximum amount awarded to National Scholars in a semester during this period was seventeen thousand dollars (\$17,000.00) per semester or thirty-four thousand dollars (\$34,000) for the academic year. However, through this assistance grant programme several instances were identified where recipients received funding in excess of this amount for a single semester, the highest amount being thirty-five thousand eight hundred and eighty-six dollars (\$35,886.00). Again, we find this to be abusive as it violates the Government's policy position as it pertains to scholarships as documented in the Virgin Islands Scholarship Policy 2014 and the Revised Virgin Islands Scholarship Policy 2020.
- 9.3.10 Two (2) instances were found where guarantee letters were written to institutions by the Premier's Office committing funding on behalf of individuals pursuing degrees. These letters, we find were contrary to the functioning of a transfer payment scheme as such letters represent a commitment on behalf of the Government of the Virgin Islands and potentially makes Government liable for future payments to these institutions on behalf of these individuals.
- 9.3.11 In addition, based on the wording in letters submitted by applicants, commitments were made to offer partial/full scholarships to applicants in contravention to the Government's already established policy on higher education training for nationals.

- 9.3.12 The manner in which these awards were approved raises some concerns as to the recipient's claim of whether the Premier's in his capacity can commit the Government for these amounts even when he is not the holder of the position. Furthermore, it begs the question whether such commitments would bind future office holders.
- 9.3.13 As stated previously, the "scholarship" given by the Premier's Office are not bound by any of the requirements of the VISP. Multiple instances (see Appendix I) were found where applicants were receiving disbursements as beneficiaries of the Virgin Islands Scholarship Programme or receiving assistance from the Ministry of Education's Assistance Grants Programme while simultaneously receiving tuition assistance and in some instances full tuition payments under this grant programme. In some instances because of the multiple awards some applicants have received, some recipients were able to obtain more funding than required based on the documentation submitted. This we find represents an abuse of the programme, whether intentional or unintentional, by applicants which resulted due to the lack of inter-departmental communication across programmes. This potential abuse could also be the result of the duplicative nature of the programmes, lack of eligibility criteria, absence of assessment mechanisms and due diligence.
- 9.3.14 As shown in Table 2, eight hundred and thirty-two thousand six hundred and twenty-five dollars and twenty-nine cents (\$832,625.29) (39 payments) were awarded in Financial Assistance for Business Support. Of that amount, the audit identified that three hundred and thirty-thousand one hundred and seventy-five dollars and twenty-nine cents (\$335,175.29) (15 payments) were directly requested to assist businesses due to COVID related hardship. The average disbursement was twenty-two thousand three hundred and forty-five dollars and two cents (\$22,345.02). The majority of these awards were given while the COVID-19 Small Business Grant Programme was being administered through the Premier's Office and each were significantly higher than the amounts awarded under the Small Business Covid Grant Programme. We find the award of these grants in this manner to be unfair as these applicants were seemingly given preferential treatment as COVID Business Grants were capped at less than eight thousand dollars (\$8,000) per business.
- 9.3.15 Similarly, in three (3) instances, grants were awarded by the Premier's Office totaling seventy-six thousand six hundred and fifty dollars (\$76,650.00) to support fishermen. Two (2) of these grants were for amounts exceeding \$20,000.00, which again was greater than the amounts awarded under the COVID Fishermen Grants Programme.

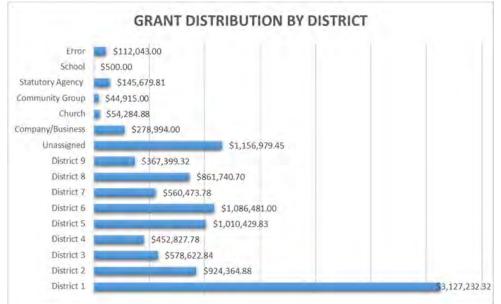

- 9.3.16 All three (3) recipients were also awarded grants under the COVID Fishermen and Farmers Grants Programme totaling \$49,000.00. It is notable to mention that all three (3) of the recipients reside in the First Electoral District. We find that the awarding of these grants in this manner to be preferential, lack procedural fairness and therefore abusive.
- 9.3.17 In addition, five (5) of the thirty-nine (39) grants were awarded to individuals as startup cost for business ventures. These grants totaling ninety-nine thousand dollars (\$99,000) were awarded without the individuals submitting any documentation, such as a business plan, to show the viability of the intended venture or to allow any evaluation to be completed on the business venture before funds were disbursed.

This represents a lack of due diligence in disbursing public funds as there was no sound basis to support the decision other than the applicant's desire to pursue an entrepreneurial endeavor.

- 9.3.18 Multiple instances were found where members of the same family applied and were granted assistance for the same issue/purpose. In one (1) instance of note, three (3) family members, within one week submitted similarly worded letters requesting assistance in the amount of thirty thousand dollars (\$30,000) each citing that the assistance was needed for the same reason, to settle outstanding legal fees. All three (3) applications were approved for the full amounts, totaling ninety thousand dollars (\$90,000), without any evidence that the debt existed or the amount of the debt.
- 9.3.19 In another instance, an applicant in 2020 requested assistance in the amount of Thirty Thousand Dollars (\$30,000) to inject equity into a building project in order to secure a bank loan (mortgage). She was awarded half of the amount (\$15,000). In the subsequent year, 2021, the applicant used the same letter to make an identical request and was awarded the full amount, thereby cumulatively receiving Forty-Five thousand dollars (\$45,000) when only Thirty Thousand dollars (\$30,000) was originally required. This we find to be abusive on the applicant's part and negligent on the Premier's part, as proper accountability and due diligence was not performed.
- 9.3.20 To aid in home repairs, the Premier's Office awarded grants totaling Seven Hundred and Fifty-Seven Thousand Six Hundred and Forty-Three Dollars and Ninety-Seven cents (\$757,643.97). However, the audit found that sixtyseven percent (67%, \$508,358.09) were awarded without any documentation (estimates, invoices) to support the awards.

- 9.3.21 Again, instances were found where multiple individuals requested assistance for the same purpose (repairs to the same property). This further demonstrates the lack of due diligence performed in the granting of these awards, as both awards were approved within the same office without any noted objections.
- 9.3.22 Eleven (11) instances with a total value of Two Hundred and Eighteen Thousand Dollars (\$218,000.00) were found where the applicants did not specify an amount being requested, however, each applicant was awarded an average of Twenty Thousand Eight Hundred and Thirty-Three Dollars and Thirty-Three Cents (\$20,833.33) without any basis for the amount awarded.
- 9.3.23 The disbursement of assistance from this programme was not equitably distributed across the territory. Although the programme is application based, approximately thirty percent (30%, \$3,127,232.32) of the total amounts awarded from the programme were given to persons in the First Electoral District when awardees were compared to the most recently published voters list. See Graph 1 showing the awards made by districts when compared against the most recent voters list.

Graph 1: Assistance Grants Awards made by Districts (assessed using the most recent Voters' List)

Given that the Premier is also the First District Representative, the disproportionate distribution of funds under this programme can be seen as politically motivated rather than welfare optimizing.

- 9.3.24 A recurring monthly payment of Three Thousand Five Hundred Dollars (\$3,500.00) was paid through this programme to a former legislator. This former legislator received One Hundred Nine Thousand Five Hundred Dollars (\$109,500.00) in assistance from this programme. These disbursement resulted from a direct request from the former legislator for what amounted to a lifetime monthly grant that would transcend administration, to assist with monthly living expenses. Annually, these payments would total Forty-Two Thousand Dollars (\$42,000). What is concerning is that the former legislator also receives the following assistance through other programmes.
  - House of Assembly –Home Care Assistance \$30,000.00 annually
  - Social Development Domestic Home Care Assistance \$6,000.00 annually

We find that the use of this account in this manner to be inequitable as other former legislators are not extended this same courteousy and the individual is already receiving significant government assistance through other programmes.

9.3.25 Some awards from the programme gives the appearance of partiality in the awarding of assistance grants. In some instances, it appears that there was a standing commitment or unspoken agreement that funding for specific individuals would be granted whenever an application was made. It is noted that a number of these individuals, politically connected and or who had direct access to the Premier possibly utilized their connection to obtain favour to receive the assistance.

While we are aware that these individuals are not ineligible and may experience situations of hardships, we find that the awarding of these grants, infrequency and amounts, gives the appearance that the awards may have been determined based solely on who the individuals were.

9.3.26 The audit found that public officers requested and received in excess of One Million Dollars from the programme, either for their personal benefit or the benefit of a family member. Although the programme does not restrict public officers from benefiting, there is the concern that due to the absence of controls the potential risk exist for public officers to become compromised or easily influenced in the execution of their duties by these substantial awards. More so, in some instances, the officers receiving these grants hold high level positions within the Premier's Office as well as other departments.

#### Recommendations

As this programme has been discontinued, no recommendations are offered.

#### Conclusion

The Assistance Grants Programme administered by the Premier's Office lacked appropriate controls to ensure that equity, transparency and accountability were maintained from the approval of budgets to the awarding of grants to applicants. The programme was found to also be heavily funded through revised budgets without a sound basis on which these revised sums were determined. This gives the impression that the Premier who also serves as the Minister of Finance utilized his authority to fund this programme. Due to the discretionary nature under which these awards were made and the results provided by the assessment conducted on awards made by districts, the question arises as to whether this programme was being utilized for political reasons and not for the socio-economic nature for which it was possibly created. As such, it is concluded that abuse of authority was possible within the programme.

Additionally, the lack of adequate controls to ensure that appropriate due diligence was exercised in making decisions on awards created inequity in the programme's administration. Furthermore, it fostered an environment in which applicants could and have abused the programme and received substantial amounts, sometimes above their intended request, as repeated requests were made for the same need and in some instances from other similar programmes across Government.

#### 9.4 MINISTRY OF EDUCATION AND CULTURE

According to the Interim Policy for Assistance Grants (2022), the policy objective of the assistance grants programme under the Ministry of Education, Culture, Youth Affairs and Sports is available to aid Virgin Islanders who require or need financial help in the field of education, sports and the creatives. These areas are a part of the educational, economical, sports development and creative enhancement of the territory that raises productivity and creativity. As such, the Ministry endeavours to provide such opportunities to Virgin Islanders. According to the Permanent Secretary, assistance grants requests are prepared as approved by the Minister and are processed based on practices of standard government procedures. During the period reviewed there were no written documentation or guidelines in place that governs these grants within the Ministry.

9.4.1 Although dispersed from within the Ministry of Education, the audit found that in the awarding of assistance grants, the national educational needs (priority areas) of the Ministry/territory were not a consideration, as there was no criteria to guide awards/amounts and grants were awarded solely based on the Minister's discretion. Furthermore, based on our review, these grants were more focused on supporting the individual needs or wants and not the national and strategic interest of the territory. This we find is a significant disconnect in the territory's/Ministry's educational goals.

- 9.4.2 The disconnect between the Ministry's educational goals and the awarding of assistance grants is further highlighted in the Interim Policy for Assistance Grants as the review of the policy indicates that it shall benefit persons and organizations seeking assistance for educational pursuits, sports development and creative development and preservation. This may pose a future issue for the territory as areas that are already saturated may continue to receive interest and deficient educational areas are not prioritized to allow for growth and development.
- 9.4.3 Beyond budgetary monitoring, the assistance grants programme lacked adequate monitoring to give assurance that the funds disbursed were used for the intended purpose. Monitoring activities were also lacking in the awarding of grants as several instances were identified where the same applicant received multiple successive awards.
- 9.4.4 The programme lacked documented eligibility and awarding criteria on which the awards granted were done. As such, this posed a challenge in evaluating whether the individuals awarded the assistance grants were eligible to receive such. Furthermore, no evidence was found to indicate that any evaluation was done on the needs of the applicant to determine whether the assistance should be awarded and the amount to be awarded.
- 9.4.5 Rather, applicants in most instances, were awarded substantial amounts equivalent to their scholarship award in the case of scholarship recipients, who also received scholarships through the Virgin Islands Scholarship Programme. The lack of such criteria left the programme susceptible to inequity in the approving and awarding of grants as there was no transparent basis on which a decision was made. Additionally, the absence of appropriate and sound guidance and criteria on which to make decisions concerning eligibility and award amounts, may pose a future challenge for the territory as the potential return on the investment made through the assistance grant may not be realized.
- 9.4.5 The Ministry of Education awarded a total of Two Million Six Hundred and Sixty-Four Thousand Two Hundred and Seventy-Nine Dollars and Eighty-Seven Cents (\$2,664,279.87) in assistance grants and awards. These awards were in the form of educational aid as well as prizes for specific sporting and cultural events. These awards were expended from four (4) subheads within three (3) programmes which fall under the Ministry. In three (3) of the subheads identified, inconsistencies were found as the expenditures made did not reflect the intent and purpose of the account. For example, assistance grants were awarded from Scholarships Foreign under the programme Tertiary Adult and Continuing Education Overseas Scholarships. However, that subhead was intended to fund scholarships awards as part of the Virgin Islands Scholarship Programme.

9.4.6 The following table gives a breakdown of the amounts awarded in assistance grants during the period.

	Programme Name MEC - Education Policy Planning and Administration		MEC - Education Policy Planning and Administration			MEC - Tertiary Adult and Continuing Education - HLSCC and Tuition Assistance Programme		MEC - Tertiary Adult and Continuing Education - Overseas Scholarships		Total	
Year	Subheads	2543	34001-572220		25434001-572250		25644037-572210		25644038-572220		
	Revised Budget	\$	140,000.00	\$	381,000.00	\$	200,000.00	\$	3,991,150.00	\$	4,712,150.00
2019	Assistance Grant	\$	138,308.50	\$	279,605.73	\$	11,800.00	\$	777,194.97	\$	1,206,909.20
	Award	\$	-	\$	67,000.00	\$	-	\$	7,002.28	\$	74,002.28
	Revised Budget	\$	40,000.00	\$	101,400.00	\$	34,470.00	\$	2,756,500.00	\$	2,932,370.00
2020	Assistance Grant	\$	39,846.00	\$	77,924.65	\$	9,000.00	\$	410,071.65	\$	536,842.30
	Award	\$	-	\$	21,275.00	\$	-	\$	-	\$	21,275.00
	Revised Budget	\$	-	\$	716,370.00	\$	49,071.00	\$	2,382,000.00	\$	3,147,441.00
2021	Assistance Grant	\$	5,000.00	\$	539,367.65	\$	36,126.00	\$	77,200.00	\$	657,693.65
	Award	\$	-	\$	34,350.00	\$	-	\$	-	\$	34,350.00
	Revised Budget	\$		\$	551,500.44	\$	49,508.00	\$	3,300,000.00	\$	3,901,008.44
2022*	Assistance Grant	\$	-	\$	81,729.44	\$	9,220.00	\$	9,000.00	\$	99,949.44
	Award	\$	-			\$	2,410.00	\$	30,848.00	\$	33,258.00

 Table 4: Breakdown Assistance Grants Awarded during the period 2019 to May 31,

 2022 across the Ministry of Education's Four (4) Assistance Grants Programmes

\* Budgetary amount represents the allotment for the entire year, however Assistance Grant and Award amounts represents expenditure as of May 31, 2022

- 9.4.7 Additionally, there is no specific budget designated within three (3) of the four (4) identified subheads for awarding assistance grants, as the funds disbursed for the period were conflated with appropriations for other purposes. For example, budget submissions for foreign scholarships do not identify that a portion of the funding is intended to be utilized for the purpose of offering assistance grants. Instead, it is apparent that the appropriated amounts were inflated, exceeds the amounts needed to satisfy committed scholarships amount, in order to accommodate any grant requests that may arise throughout the year. We find that this practice makes it difficult to report on the true cost of the scholarship programmes as the cost of the grants would have to be disaggregated from the balances reported in the accounts.
- 9.4.8 Sixty-four (64) instances totaling Eight Hundred and One Thousand Sixty-Six Dollars and Eighteen Cents (\$801,066.18) were identified where the awarded amounts were greater than the minimum amounts (\$9,000.00) awarded under the Virgin Islands Scholarship Programmes. In one (1) instance, an applicant received a single grant in the amount of Twenty-Two Thousand Dollars (\$22,000.00). In addition, of these instances, there were four (4) applicants that received multiple awards with one (1) applicant receiving two (2) awards of Twenty Thousand (\$20,000.00) each. The awarding of grants in values greater that the amounts offered under the VISP was found to be abusive as such awards can be used to circumvent the scholarship award process. The following table shows the grants awarded based on five (5) ranges.

Assistance Grants Value	Number of Awards	Total	Value for Awards
	Number of Awards	TOta	value for Awarus
\$9,001 to \$12,000	42	\$	424,485.68
\$12,001 to \$15,000	10	\$	142,928.50
\$15,001 to \$18,000	3	\$	51,652.00
\$18,001 to \$21,000	8	\$	160,000.00
Over \$21,000	1	\$	22,000.00
Total	64	\$	801,066.18

Table 5: Assistance Grants Awarded given by the Ministry by Various Ranges

- 9.4.9 Thirty-two (32) instances were found where scholarship recipients received awards from the VISP as well as the Assistance Grant Programme operated by the Ministry. In some instances, the grants were given just prior to the award of the scholarship which gives the impression that these grants were given as a stopgap measure until the scholarships could be facilitated. In most instances, the grants were awarded in addition to the scholarship disbursements. In six (6) instances, the amount received in assistance grants was more than the amount received as part of the VISP scholarship.
- 9.4.10 Based on information obtained from the JDEdwards Accounting System, Four Hundred and Four Thousand One Hundred and Fifty Dollars (\$404,150.00) or approximately forty percent (40%) of the amount awarded, was given to scholarship recipients in assistance grants in support of their educational pursuits. However, in awarding these amounts no consideration was given to amend the recipients bond agreements to reflect this augmented benefit to the recipient's scholarship. The following table shows the comparison of assistance grants received to scholarship amounts awarded and the point at which the assistance was received in relation to the scholarship.

# Table 6: Assistance Grants and Scholarships Awards Received by Individuals from the Ministry of Education

Beneficiary	Assis	tance Grant		Scholarship		Grand Total	Comments
	\$	8,000.00	\$	40,500.00	\$	48,500.00	1 - Assistance was received before scholarship was awarded
		2 500 00	~	01 000 00			
	\$	3,500.00	\$	81,000.00	\$	84,500.00	1- Assistance grant received during scholarship award period
	\$	20,000.00	\$	18,000.00	\$	38 000 00	1 - Assistance grant received during scholarship award period
-	\$	22,500.00	\$	18,000.00	\$		2 - Assistance grants received prior to scholarship award

9.4.11 Two (2) Cabinet papers were reviewed relating to the Ministry's Scholarship Programme that bears mentioning because they shed some light on the manner in which assistance grants within the Ministry were being administered. In June 2021, via Cabinet Paper 283 of 2021, the Ministry sought Cabinet's approval for scholarships based on the recommendations of the Virgin Islands Scholarship Committee. According to the Paper, thirty (30) applicants were recommended for scholarships. The top twenty (20) applicants were recommended out rightly, while five (5) of the remaining ten (10) applicants were recommended for approval subject to the availability of funding. The Paper also stated that twenty-two (22) applicants were not recommended, based on the outcome of the Committee's evaluation due to various reasons. The Ministry sought Cabinet's approval based on the Committee's recommendation. Cabinet approved the Ministry's request and utilized its discretion, without analysis of financial and other implications. Cabinet approved scholarships for the twenty-two (22) candidates that were not recommended by the Virgin Islands Scholarship Committee. Realizing the implications, the Ministry via Cabinet Paper 425 of 2021 petitioned Cabinet to rescind its decision relating to the candidates that were not recommended and suggested that grants of no more than Nine Thousand Dollars (\$9,000) be given instead to those candidates. Cabinet accepted and approved the Ministry's suggestions. In total Cabinet awarded thirty-three (33) scholarships, including scholarships for three (3) candidates that were not recommended by the Committee as well as grants for the remaining nineteen (19) candidates. These nineteen (19) candidates were awarded these grants without application and without consideration as to whether the monies awarded would be sufficient to achieve the intended outcome. We find the manner in which these scholarships and grants were awarded undermined the purpose of the Scholarship Committee and under further undermines the grant approval process.

#### Recommendations

- 1. It is recommended that the Ministry move swiftly to finalize and implement its draft policy for the management of Assistance Grant. The Ministry should ensure that the process in awarding grants is transparent and equitable.
- 2. As there are a significant number of scholarship recipient that also a beneficiaries of grants awarded by the Ministry, it is recommended that the Ministry conduct a review of the amounts awarded as part of the VISP to better align or meet the final needs of scholarship recipients. The outcome of this review should be presented to Cabinet for its approval.

#### Conclusion

The Assistance Grants Programme administered by the Ministry of Education too lacked appropriate controls to ensure that equity, transparency and accountability were maintained. The programme although discretionary in nature at the Ministry level was found, in one instance, to have some level of dictate from Cabinet in awarding grants. No due diligence is conducted as a routine part of programme execution. The absence of appropriate controls within the programme has made it vulnerable to abuse by both applicants and decision maker.

Additionally, the lack of adequate controls to ensure that appropriate due diligence was exercised in making decisions on awards created inequity in the programme's administration. Furthermore, it fostered an environment in which applicants could and have abused the programme and received substantial amounts, sometimes above their intended request, as repeated requests were made for the same need and in some instances from other similar programmes across Government.

#### 9.5 HOUSE OF ASSEMBLY

Historically, the Assistance Grants Programme within the House of Assembly was intended to cover the cost of minor district and territorial projects submitted by Elected Members. Over the years, the programme evolved and is now widely utilized to provide financial assistance, for a myriad of purposes, to individuals and organizations within the Territory as well as to finance constituency offices.

In 2009, this Department completed an audit of the assistance grants programme administered through the House of Assembly. A follow-up of the initial audit was conducted in 2014 where it was found that most of the recommendations were not implemented. This review has found that unfortunately nothing has fundamentally changed in the manner in which the programme continues to function and as a result the following deficiencies remain:

9.5.1 During the review period, the House of Assembly awarded Nine Million Thirteen Thousand Five Hundred Forty-One Dollars and Sixty-Five Cents (\$9,013,541.65) in assistance grants. These grants covered a broad spectrum of requests from applicants, such an assistance with rent, education, and radio programme sponsorship, sponsorship for fitness competition, gift certificates, medical expenses, business support, home and property repairs, food vouchers, appliances and furniture, mortgage and credit card payments, as well as expenditure for district expenses. These payment were made via recurring monthly disbursement and individual vouchers. The following table shows the payment distribution.

Payment Type	<b>Total Grants</b>		Number of Transactions
Deposits (DT)	\$	(117,288.45)	343
Journal Entry (JE)	\$	11,717.00	306
Recurring Voucher	\$	2,291,606.00	11920
Payment Voucher (PV)	\$	6,827,507.10	7296
Total	\$	9,013,541.65	19865

Table 7 - Payment Distribution of assistance grants disbursed by the House ofAssembly

- 9.5.2 The programme continues to lack clear objectives. Generally, it is being used to provide assistances to residents and constituents. As such, the programme does not have key performance indicators and other appropriate measurements on which programme outcomes can be measured. Consequently, no evaluation has been conducted on the programme during the review period.
- 9.5.3 The programme is absent on eligibility requirements and as such persons of all socio-economic status have applied and have been awarded assistance from this programme. Even though economic data, such income, is required as part of the application process, no evidence was found that this formed an integral part of the decision making process. In addition, because of the discretionary nature of the awards and the lack of a documented assessment process and criteria, eligibility was determined subjectively by each representative based on their sole determination of an applicant's worthiness to receive an award.
- 9.5.4 Although the programme has guidelines developed and agreed upon by the Members of the House of Assembly (HOA), the programme remains largely discretionary in nature. Members have exercised unrestrained discretion in determining what measure they will use to assess each application, as well as, in determining the amount of the award. Unfortunately, such measures are not documented on the application to allow an evaluation to be done on the merits on which their decision was made. In many instances the guidelines, although wholly inadequate and in some instances impractical to enforce, are being blatantly ignored and breached with regularity. For example, guidance that limit areas such as district office expense, monthly living allowances and documentation standards are consistently breached without consequence.
- 9.5.5 As stated previously, the guideline regarding district office expenses are routinely breached. District offices continue to operate without signed leases, lodged with the Clerk, to support payments. In addition, some members have engaged consultants to provide marketing, public relations

and communication services at significant costs. These amounts consume a large amount of the total budget allotted for district office expenses as outlined in the guidelines. Fifty-four (54) payments totaling One Hundred Eleven Thousand Eight Hundred and Twenty-One Dollars (\$111,821.00) were identified for such payments. In one (1) instance, one (1) Member expended approximately Eighty Thousand Dollars (\$75,000.00) between July 2019 and April 2022 for such services. Furthermore, the consultant providing these services did so while being employed by the Government of the Virgin Islands. Additionally, for a significant period, these services were also provided while the Representative held ministerial responsibilities for the Department for which the consultant was employed. We find that this scenario represented a conflict of interest in the disbursement of these payments.

- 9.5.6 Although the guidelines limit the grant of financial assistance to "individuals experiencing genuine hardship brought about by unusual and extenuating circumstances, reason for which should be provided", the programme lacks the mechanisms that would assist members in assessing the merit of each application and subsequent award. Additionally, information that would prove critical in assessing the genuine hardship being experienced is not collected or utilized in arriving at a decision on an amount to be awarded. Review of documentation and explanations submitted by applicants, in a significant number of cases, do not reflect the nature of the hardship and that such hardship was due to extenuating circumstances. In some cases, the request was borne out of the applicant's desire to pursue certain undertakings. For example, an applicant may want to take a course, purchase a laptop, or participate in a competition but do not have the funds.
- 9.5.7 Numbers 1 and 2 of the Guidelines prohibits assistance to self and assistance to companies in which representatives have a majority ownership interest, however, instances were found where these rules were circumvented when representative(s) in granting assistance to individuals, paid the assistance directly to an entity in which they have interest thereby benefiting from the assistance being awarded.

For example, an applicant may request assistance to purchase an item from a representative that supplies that particular item, instead of the representative issuing the requested grant amount to the individual, the payment is made directly to the representative's business. In addition, instances were also found where purchases or payments were made, on the representative's own accord, in violation of these guidelines/rules. Of the One Hundred and Seventy-Four Thousand Eight Hundred and NinetyFive Dollars (\$174,895.00) in disbursement to K-Mark Food Market, fiftytwo percent (\$90,789) was authorized by the District Four Representative who is also a principle in this entity.

- 9.5.8 In late 2020, the Assistance Grants budget under the House of Assembly was increased giving each Representative an additional \$100,000.00. Shortly thereafter, documentation shows that various representatives awarded without application, what can only be described as "monetary Christmas gifts" to various persons throughout the territory. These "monetary gifts" were in the amount of a few hundred dollars (\$300) to several thousands (\$6,000.00). In excess of Three Hundred Thousand Dollars (\$300,000) of such payments were identified in the documentation reviewed and based on the timing and size of the increases and the proximity to the end of the year, it is safe to assume that this represents just a fraction of these "monetary gifts".
- 9.5.9 Guideline 14 indicates that the House of Assembly is to implement a tracking system for multiple and/or repeated grants. The HOA Request for Assistance Application Form also requires that applicants disclose whether or not assistance was received from another representative or another public institution.
- 9.5.10 It was found that applicants continue to apply to multiple representatives for the same purpose without fully disclosing that assistance was requested or received from another representative or public institution. At least one instance was identified where an individual received Eight Thousand Two Hundred Dollars (\$8,200) in total from six (6) different representatives for funeral expenses. In reviewing the application form for this applicant, no information was provided to indicate that the individual was making a request for assistance from other representatives.
- 9.5.11 The Guidelines provide that requests for assistance with medical expenses should be accompanied by evidence from the attending physician. However, the audit noted that some requests are not supported by such evidence. For example, an extreme instance was found where an individual without evidence of a medical diagnosis or referral, applied and received assistance for a breast reduction surgery. In a majority of cases, requests for medical assistance is usually supported with outstanding invoices from applicants.
- 9.5.12 A majority of the applications reviewed were found to be incomplete, missing vital information such as income levels and information regarding assistance received from other governmental agency. We find that this

may potentially be a deliberate act, as persons have exploited the deficiencies in the grant administration process across government to receive funding for the same or similar need, thereby potentially receiving more funds than required. Despite the fact that applications are incomplete, such applications are still processed.

- 9.5.13 A small random sample of two hundred and fifty (250) applications were reviewed to determine whether the amounts awarded were supported by sufficient information/documentation. Of these two hundred and fifty (250) awards, only ten percent (10%) were determined to be adequately supported with appropriate information/documentation. The remaining ninety percent (90%) were awarded based on a letter or the House of Assembly's application stating the amount required. In addition, even in instances where applications were deemed to be adequately supported we found that requested amounts were reduced, whereas those that were not adequately supported received the full amount requested. Such instance show that decisions were not solely based on the assessed merit of the application but rather based on the individual.
- 9.5.14 Although the programme's guidance discourages awarding assistance to individuals on a recurring basis, aside from those monthly automatic payments, several instances were noted where individuals on a regular basis have been awarded grants each year. These disbursements are usually made from specific Members and full amounts of request are usually awarded which again gives the impression that the awards are not being assessed on merit but rather on the applicant.

#### Recommendation

As this programme has been discontinued, no recommendations are offered.

#### Conclusion

The Assistance Grant Programme at the House of Assembly can be likened to an unorganized welfare programme. It was largely controlled by elected officials who had little to no oversight and limitations to their discretion. We have concluded that the programmes lack appropriate objectives, control and structure that would promote transparency and accountability. We further conclude that the absence of these fundamental attributes have left the programme open to significant abuse. Since the audit in 2009, there has been three House of Assembly in the British Virgin Islands and although significant weaknesses were highlighted regarding the Guidelines for this programme, none have seen it fit to address those deficiencies in order to strengthen the programme. As a result, the programme remained a possible conduit to utilize public funds for improper motives and purposes.

#### 10.0 OVERALL CONCLUSION

According to a study conducted by Transparency International entitled Overview of Parliamentary Discretion Spending, the evidence strongly suggests that discretionary spending (known by various terms in differing contexts, such as pork-barrel spending and earmarked funds), whether it is wielded by legislative or executive branches, tends to be used for political rather than welfare-optimising causes. Discretionary funding schemes strengthen the chances of (re)election for those politicians who have access to such schemes while reducing the election chances of their opponents, thus skewing the overall political arena in a manner that does not strengthen democratic norms.

These Assistance Grants Programmes as operated within the Government of the Virgin Islands lacked basic tenant of good governance such as accountability, equity and transparency. All the programmes lacked clearly defined policy objectives and rules that would guide their functioning. These programmes operated outside any financial rules for public expenditure on the fallacious belief that Elected Members exercised unconstrained authority over these funds. It has always been the argument that Elected Officials are more in tune with the needs of their constituency and hence why the programmes were operated at that level. Although that argument may hold some validity, that knowledge should have been utilized to inform and formulate policy to meet those needs in a holistic and transparent manner. Unfortunately, we have concluded that the operations of these programmes, for the most, part did not serve to resolve any socio-economic deficiencies in our communities as the programmes were largely utilized to satisfy individual wants and desires.

When public funds are expended based on the most opaque of circumstances, discretionary decisions of political operative, without rules and limits and without consequence, it is near impossible to separate political and altruistic motives. In our final assessment, we have concluded based on our review that there was an absence of due diligence in awarding grants under these programmes and the process used was neither transparent nor equitable.

We further conclude that there are indications of abuse of discretionary authority by Members in awarding grants based on best practice as well as abuse by applicants who have utilized the deficiencies in the process to benefit themselves significantly. These programmes, as were operated, were an affront to good governance and an abuse of the Public purse. **APPENDIX I**
